## POLICE OFFICER STAFFING LEVELS CONDITIONED ON FUTURE TAX FUNDING

- Change the process for establishing and funding minimum police staffing levels for the City,
- Funding for police will be increased by setting the minimum number of full-time police officers for the City from 1,700 to 2,074 in the first five years, requiring the City to budget enough money to pay for these officers.
- Create a fund (to set aside funding) for police recruitment that would last for five to 10 years: \$16.8 million in the first year and would change each year depending on the number of recruits needed, but would not exceed \$30 million per year.
- Allow the SFPD to introduce amendments to its own budget.
